

## **UPDATE ON SEAA OUTDOOR TRACK & FIELD CHAMPIONSHIPS**

The SEAA continues to work with England Athletics and to follow their guidance regarding training and competition. We are concerned that athletes get enough training time before competition to make those competitions safe and worthwhile. We are aware that a number of training facilities are still closed, and we would not want to promote competitions that can only reasonably be accessed by a proportion of the athletic community.

We have already been working through how we might be able to stage meaningful championships in a safe manner. At the time of writing there are two proposed weekends for championships - mid August for the Age Groups and the end of August for Senior/U20 but as there is no certainty that field events or non-laned races can be held safely we are continuing to monitor the situation and when definitive guidelines are issued by England Athletics we will decide on what can sensibly be done.

We do hope that we shall have more definite news within the next couple of weeks.

**JOHN GANDEE**  
SEAA COMPETITION CHAIRMAN
