The Photo finish equipment comprises

- Finish Lynx system with
 - Full colour camera
 - Timing to 1 00th of a second
 - Printed race results
 - Track side clock (if room permits)
 - Auto positioned camera
 - Camera on tripod if necessary
 - Start transducer on tripod
 - 2 computers
 - Wind Gauge
 - Result / finish printer (**numbers only**)

For evening meetings all cabling to be outside the track. The installation cabling to be outside the track. The installation and removal must be fast for evening meetings and the lighting on the finish good.

SCAA will install the equipment and provide an operator.

**The user will arrange for the additional operators - say 1 or 2.
 Additional operators can be trained. The user will also provide Leg numbers especially for non lane run events.**
